

Briefing Note on a Joint East & West Horsley Parish Council Response to the Proposed Wisley Airfield Planning Application

Introduction

Taylor Wimpey has submitted its formal application for planning consent to develop Wisley Airfield. Comments and objections must be submitted before Tuesday 4th October 2022.

Working with East Horsley PC we intend to recommend submitting the attached proposed objection, which has been thoroughly researched and involved the contributions from several specialist consultants.

Whilst the proposed objection is currently in draft form it is essentially agreed between the Special Project Group set up to work for the two Parish Councils. It will inevitably require some minor amendment before submission. The submission of further comment after the date of formal submission is also likely.

Recommendation

The Planning & Environment Committee seeks the approval of the Parish Council to submit this document before 4th October, and the right to make minor amendments as and when necessary.
